

News from Terrawatu, Tanzania Fall 2009

Terrawatu's new **Internet Café and Training Center** opened in July in Arusha. The Center was outfitted and networked by a group of wonderful students from the Global Technology Academy at Western Washington University in the United States. Read more about their visit to Tanzania at <http://gta-wwu.org/projects/arusha-tanzania-summer-2009/> including a blog by Director Linnea Rye under "Recent News" item.

Due to the extremely challenging drought that has hit **East Africa** this year, tree planting activity has stalled as villagers are using what water exists for basic survival needs. <http://allafrica.com/stories/200909040780.html>

Co-Directors Dr. Tanya Pergola and Lekoko Ole Sululu in partnership with Gibb's Farm Tanzania are assisting the launch of unique spiritual healing journeys as part of the African Living Spa project: <http://www.gibbsfarm.net/>

Corporate **matching gifts to Terrawatu have increased significantly** over the recent months! Please do check with your employer to find out how easy it is to double your donations to Terrawatu's projects in Tanzania. It only takes a few clicks on your computer. For more information please email us at info@terrawatu.org.

Click here to see our Website: <http://www.terrawatu.org> and then on "**Contribute**" to make tax-deductible donations to Terrawatu.

Blessings,
Tanya and the Terrawatu Team
